FOREWORD

Until 1957 the names of graduates and holders of diplomas were to be found either in the University Calendar current at the time or in that for the session 1939—1940.

This *Register* contains the names of all persons who have been awarded a qualification of Owens College or the Victoria University or the Victoria University of Manchester after attendance at any of those institutions. The names of honorary graduates and graduates by incorporation are included in their appropriate alphabetical place.

The present volume is the first edition of the *Register* and covers the period from the opening of Owens College to the end of the year 1958. It is intended to issue annual supplementary lists, which will not be cumulative, and to publish a new *Register* at five-yearly intervals.

HISTORICAL NOTE

Owens College, Manchester, was opened in 1851. The Victoria University was founded under a charter granted in 1880. This charter established a federal constitution and made Owens a constituent college of the university. In 1884 University College, Liverpool, and in 1887 Yorkshire College, Leeds, were admitted as constituent colleges. A new charter was issued in 1903, reconstituting the university under the name of the Victoria University of Manchester and freeing it from liability to admit or remain in association with any college other than Owens, and in 1904 an act was passed for the incorporation of Owens College with the university.

EXPLANATORY NOTES

1. The abbreviations (*Owens*), (*Univ.*) and (*Yorks.*) indicate the constituent college of the Victoria University. (*Owens*) is not used where a person gained the Associateship of Owens College, the latter being indicated by "Assoc. Owens" and the date.

2. An entry in italics indicates a person of whose death the University has been apprised.

3. The entries relating to married women are of three kinds, as illustrated by the following examples:

Abba, Edna Dorothy (Mrs. E. L. Peel) obtained her initial qualification as Abba;

Alderson, Joan Lorna (*née* Levy) .. began a course as Levy but obtained her initial qualification as Alderson;

Aanensen, Margaret Ellen (Mrs.) .. began a course and obtained her initial qualification as Aanensen.

It should be noted that *all* the qualifications obtained by a married woman are shown under her maiden name, unless she was married at the time of obtaining her initial qualification.

4. The word "Class" is omitted throughout and is indicated by the use of a roman numeral. To indicate a division of a class a small arabic figure 1 or 2 is placed as a subscript after the roman numeral.

The use of a roman numeral following a degree abbreviation and a subject or the phrase "Hons." or "with Hons." indicates that the degree was awarded with honours in the class shown.

The phrase "with Hons." after a degree abbreviation indicates that the degree concerned was awarded with honours.

The word "unclassified" refers to an unclassified honours degree.

Where the list of candidates for any qualification is "divided" (as opposed to "classified") the phrases "Div. i", "Div. ii", "Div. iii" are used.

EXAMPLES

B.A. Classics I .. Bachelor of Arts with First Class Honours in Classics.

B.A. Classics II₁ .. Bachelor of Arts with Second Class (Division i) Honours in Classics.

Dp.Chem.Engin. II .. Diploma in Chemical Engineering, Class II.

B.A. Ordinary or General Degree of Bachelor of Arts.

B.Sc. Div. i .. Ordinary Degree of Bachelor of Science, Division i.

B.Sc.Tech. Applied First Class in the Honours Division in the Final Chemistry Hons. Examination in Applied Chemistry for the degree of Div. I Bachelor of Technical Science.

5. Where a candidate has completed more than one course of study qualifying for the same degree of Bachelor the title of the degree is shown only once. For example, "B.Sc. Div. ii 1952, Chemistry III 1953" indicates a candidate who graduated B.Sc. Ordinary degree, Division ii, in 1952 and satisfied the Examiners in the Honours School of Chemistry (in the Faculty of Science) in Class III in 1953.
